PROFILE

Motivated and detail-oriented BCA graduate with hands-on experience in frontend development using React and Tailwind CSS. Skilled in building dynamic and responsive web applications with a strong understanding of Firebase and Firestore. Passionate about creating clean, user-friendly interfaces and continuously expanding technical knowledge..

Education

Tribhuvan University, Bachelor in Computer Applicatione(BCA)   2019 – 2024
- GPA: 3.4/4.0

Projects

Weather   github.com/mukeshjaiswa/Weather

Tech Stack: React, TailwindCSS, OpenWeatherMap API
- Developed a responsive weather application using React and Tailwind CSS for modern UI design.
- Integrated real-time weather data by fetching from the OpenWeatherMap API.
- Implemented search functionality to display current weather conditions for any city.
- Handled API errors and edge cases with user-friendly alerts and loading states.

Result Management system   github.com/foodordersystem

Tech Stack: React, Firebase, Firestore, Tailwind CSS
- Used Firebase Firestore to manage student data such as name, symbol number, semester, and marks.
- Implemented secure data entry forms with validation to add and update results.
- Designed a clean, responsive UI using Tailwind CSS for both admin and student views.

Food order System   github.com/foodordersystem

Tech Stack: React.js, Tailwind CSS, Firebase, Firestore, REST API
- Developed a responsive food ordering site using React.js and Tailwind CSS with clean UI/UX design.
- Integrated REST APIs to dynamically fetch food items, categories, and manage orders.
- Implemented Firebase Authentication for secure user login and registration.
- Used Firestore to store and retrieve real-time data for users, orders, and cart details.

Technologies

Languages and Frameworks: HTML ,CSS , JavaScript, Tailwindcss ,React

Tools and Technologies: Git, GitHub, Firebase
